## WHY PANGEA

One continent. One system. Every stage.

Two hundred million years ago every continent was one: Pangea. What looks separate today was once a single piece of land.

Real estate works the same way. Land, capital, design, construction, operations and people look like separate businesses, handled by separate specialists who each see one stage and hand the risk to the next.

We see one system. A decision made at acquisition shows up years later in the operating budget. An assumption skipped in underwriting becomes a problem in construction. So we stay with the asset from raw land to what it could be, to what it actually becomes, to how it is managed and what comes next.

That is Pangea: every stage of real estate, every asset type, in more than one country, understood as one whole.

## ELEVATOR PITCH

Pangea Ventures International is a full-cycle real estate partner. We find the land, underwrite the deal, manage the build, operate the asset and tell you the truth at every stage, on time. In the United States, Colombia and Costa Rica.

## POSITIONING

Most real estate firms are paid to close a transaction. Pangea is accountable for what the asset does after it.

## WHAT CLIENTS SHOULD FEEL

- “My capital is being handled carefully.”
- “They tell me the truth, even when it is not what I want to hear.”
- “They are fast, and they are right.”
- “They see the whole life of the asset, not one transaction.”

# What we believe.

---

## Real estate is one system.

Every decision affects the next stage. We plan the exit before we sign the purchase agreement.

---

## A number without its assumption is an opinion.

Every figure we give you comes with what it depends on and what would change it.

---

## The truth is only useful on time.

Bad news found early costs less. You hear it from us the day we find it, with a plan attached.

---

## Partners are chosen, not closed.

We work with people who want the same outcome and say so plainly.

---

## Speed comes from preparation.

We are fast because the work is done before it is needed, not because steps are skipped.

---

## Capital should always have a next move.

An asset that no longer fits your goals is a decision waiting to be made. We help you make it.

# Honest, reliable, and fast.

We tell you the truth, on time.

---

## Truth on time

We say what we know when we know it, including the answers you did not want to hear.

---

## Fast, never rushed

Quick replies, quick first reads, quick decisions, on work that was prepared properly.

---

## Full-cycle knowledge

Land, capital, construction, hospitality and management, from people who have done the work.

---

## Reliable

We do what we said, when we said. If a date moves, you hear it before it moves.

---

## Transparent

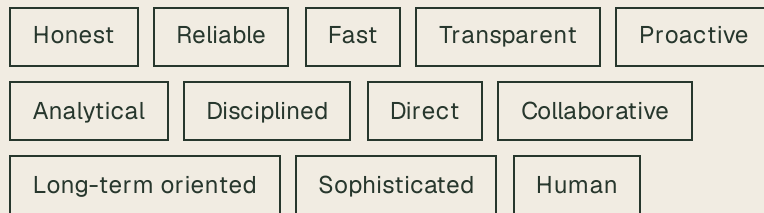

You see the numbers, the assumptions behind them, the risks and who is responsible.

---

## Aligned

Shared objectives, direct communication and clear expectations, from the first call.

## PANGEA IS

## PANGEA IS NEVER

## WHO WE WORK WITH

We do not work with everyone. We work with clients and partners who value transparency, accountability and thoughtful decisions, and who want to hear the truth early.

## WHO IT SERVES

Private investors, family offices, landowners, developers, operators and international buyers putting capital into land, construction and income property in the United States and Latin America.

# From raw land to a managed asset.

We stay with the asset from the land, to what it could be, to what it becomes, to what gets managed, and to what comes next.

01

## Identify

The land

Markets, data, leads,  
acquisitions

02

## Evaluate

What it could be

Underwriting, due diligence,  
risk, strategy

03

## Create

What it becomes

Development, general  
contractors, construction,  
execution

04

## Operate

What gets managed

Long- and short-term rentals,  
hospitality, property  
management

05

## Optimize

What comes next

Asset management,  
disposition, reinvestment,  
portfolio strategy

One team across every stage. No hand-offs that lose information or hide risk.

# Every asset type.

The same discipline applies whether the asset is a raw parcel or an operating hotel.

## Land & lots

Raw land, exempt splits, subdivisions, entitlements

## Single-family

New builds, rentals, build-to-rent

## Multifamily

Small and mid-size apartment assets

## Commercial

Retail, office, mixed use, industrial

## Hospitality & hotels

Boutique hotels, lodges, serviced stays

## Short-term rentals

Vacation and furnished rentals

## Long-term rentals

Stabilized rental income

## Renovation & flips

Value-add, repositioning, fix and flip

## New construction

Ground-up buildings with general contractors

# International, from the ground up.

The United States, Colombia and Costa Rica, with local knowledge in each market and one standard across all of them.

---

## UNITED STATES

### Nationwide

Land, subdivisions, single-family, multifamily, commercial and rental assets across the country.

39.8283° N, 98.5795° W

---

## COLOMBIA

### Eje Cafetero

The coffee region: Caldas, Risaralda and Quindío.

4.8133° N, 75.6961° W

---

## COLOMBIA

### Valle de Aburrá · Antioquia

Medellín and its metro area, and the north and center of Antioquia.

6.2442° N, 75.5812° W

---

## COSTA RICA

### San José

The Central Valley around San José.

9.9281° N, 84.0907° W

# What clients can hire us for.

Five service lines. Use one, or use all of them across the life of an asset.

---

**01**

## Data & Deal Flow

Find the right deals before everyone else does.

## Investment & Partnerships

Put capital to work, and know its next move.

## 01

# Data & Deal Flow

Find the right deals before everyone else does.

For investors, operators and teams that need a steady pipeline of real opportunities.

## WHAT YOU GET

- Data and lead sourcing strategy for every transaction type
- Quarterly market arbitrage report: where prices are out of line, market by market
- Automation we build and hand over, so your team runs it
- Done-for-you data pool: we run it and send you qualified deals every month

## PRICING

|                                    |                     |
|------------------------------------|---------------------|
| Data & lead strategy session       | \$1,500 one-time    |
| Quarterly market arbitrage report  | \$2,500 per quarter |
| Automation build (you run it)      | From \$7,500        |
| Data pool subscription (we run it) | \$950 per month     |

## 02

# Underwriting

Know what a deal is worth before you commit to it.

For buyers, lenders and partners evaluating any asset type, in any of our markets.

## WHAT YOU GET

- Standard underwriting: land, flips, single-family and small rentals
- Complex underwriting: subdivisions, multifamily, hospitality, development, international
- Every model states its assumptions, base case, downside and primary risk
- A clear recommendation: proceed, renegotiate or pass

## PRICING

|                                 |                |
|---------------------------------|----------------|
| Tier A · Hourly                 | \$350 per hour |
| Tier B · 2 standard + 1 complex | \$3,500        |
| Tier C · 3 standard + 1 complex | \$4,200        |
| Complex or non-standard deals   | \$550 per hour |

### TIER A

Hourly

**\$350** /hr

Pay only for the time a deal needs.

### TIER B

2  
standard +  
1 complex

**\$3,500**

For buyers comparing a few deals at once.

### TIER C

3  
standard +  
1 complex

**\$4,200**

For active investors with steady volume.

Complex or non-standard deals (large development, hospitality, international structures) are billed at \$550 per hour. Standard underwriting is delivered in 48 hours, complex in 5 business days.

03

# Transactions & Systems

Close cleanly, and keep every file moving.

For investors and teams who need contracts to closing handled, and a CRM that actually runs the business.

## WHAT YOU GET

- Transaction coordination from signed contract to closing
- Title review, deadlines, documents and parties managed in one place
- CRM implementation: pipeline, automations, reporting
- Team training and handover

## PRICING

|                          |                |
|--------------------------|----------------|
| Transaction coordination | \$495 per file |
| CRM implementation       | From \$3,500   |

## 04

# Development Management

From plan to built asset, on budget and on time.

For landowners and investors building subdivisions, homes, multifamily or hospitality.

## WHAT YOU GET

- Feasibility, entitlement path and budget
- General contractor selection, bids and contracts
- Schedule, draws and cost control
- Weekly reporting: where we are, what is next, what it costs

## PRICING

|                                       |                                           |
|---------------------------------------|-------------------------------------------|
| Development and underwriting advisory | \$450 per hour                            |
| Consulting retainer                   | From \$3,500 per month, 10 hours included |
| Pangea-managed projects               | 25–35% of project net profit              |

05

# Investment & Partnerships

Put capital to work, and know its next move.

For owners and investors asking what is a good investment, what to do with an asset, or where to reinvest.

## WHAT YOU GET

- Investment strategy: which asset type, which market, which structure
- Asset decisions: hold, improve, refinance, sell or reinvest
- Joint-venture projects across the United States, Colombia and Costa Rica
- Short- and long-term rental and hospitality strategy

## PRICING

|                        |                                     |
|------------------------|-------------------------------------|
| Investment advisory    | \$350 per hour or within a retainer |
| Joint-venture projects | 25–35% of project net profit        |

# You always know where your money stands.

Every report, call and dashboard answers the same six questions.

---

Where are we?

---

What are the risks?

---

Who is responsible?

---

What happens next?

---

What decisions need to be made?

---

What are the numbers telling us?

# Clarity across the real estate lifecycle.

Primary. Website hero, covers, signage.

---

Land. Capital. Operations.

Short form: cards, bios, footers.

---

From opportunity  
to operation.

Explains the full cycle.

---

The truth, on time.

Values line for social and proposals.

---

Claridad en todo el  
ciclo inmobiliario.

Primary, in Spanish.

PARA COLOMBIA Y COSTA RICA

# Claridad en todo el ciclo inmobiliario.

Pangea Ventures International es un socio inmobiliario de ciclo completo. Encontramos la tierra, analizamos el negocio, gestionamos la construcción, operamos el activo y te decimos la verdad en cada etapa, a tiempo. En Estados Unidos, Colombia y Costa Rica.

## VALORES

- **La verdad, a tiempo.** Decimos lo que sabemos cuando lo sabemos, incluso lo que no quieres oír.
- **Confiables.** Hacemos lo que dijimos, cuando lo dijimos.
- **Rápidos, nunca apresurados.** Respuestas y análisis rápidos, sobre un trabajo bien preparado.
- **Transparentes.** Ves los números, los supuestos, los riesgos y quién es responsable.
- **Ciclo completo.** Tierra, capital, construcción, hotelería y administración.
- **Alineados.** Objetivos compartidos, comunicación directa, expectativas claras.

## LÍNEAS DE SERVICIO

Datos y flujo de negocios · Análisis financiero (underwriting) ·  
Transacciones y sistemas · Gerencia de desarrollo · Inversión y alianzas

# Inspired by the Burj Khalifa.

The tower stands because its wings brace a central core, and each part lets the others rise higher. Pangea works the same way: separate disciplines bracing one investment.

## THE SPIRE

Capital and the investment decision, split because every decision has two sides: opportunity and risk.

## THE WINGS

Land and construction on one side, operations and management on the other.

## THE OPEN ARCH

The shared center at the base: the client, everything built around it.

**Original concept.** Drawn by the founders.

**Final artwork.** The same drawing, traced and refined as vector.

#### WHAT WAS REFINED

- **Both halves match**, mirrored to exact symmetry.
- **One clean tip.** The center split eases in just below it.
- **Even line weight.** Inner lines hold one width and taper to fine points.
- **Smooth edges.** Rough edges and stray marks near the wing tips removed.
- **Vector artwork** that stays sharp from favicon to building sign.

**Horizontal, two-tone.** Website, email, letterhead.

**Vertical, two-tone.** Covers, signage, card front.

**Wordmark.** When the symbol is already present.

**Reversed.** Sand and Bone on Deep Forest.

**Single color.** Deep Forest. Default for documents.

**Black.** Forms, fax, one-color engraving.

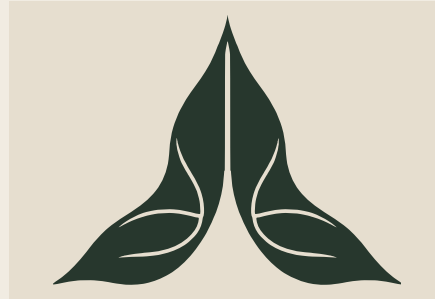

**White.** Over black or darkened photography.

**Bone on Umber.** Folders, textiles, packaging.

Two-tone. Primary.

Deep Forest. One color.

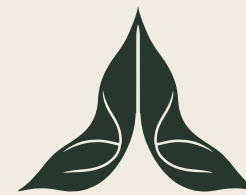

Reversed two-tone.

Avatar. LinkedIn, social, favicon.

Clear space = the cap height of PANGAEA on every side. Nothing enters the dashed line.

120 px

64 px

40 px

28 px

20 px

**Minimum sizes.** Symbol 40 px / 11 mm for full detail (the silhouette reads down to 20 px). Horizontal lockup 140 px / 35 mm. Vertical lockup 96 px / 25 mm.

# Deep Forest on Bone does most of the work.

Terracotta is the one signal. It marks the single number, action or risk that matters on a page.

**Surface share.** Bone 45 · Forest 30 · Umber 10 · Terracotta 8 · Sand 5 · Gold 2

|                                                                                                                                                               |                                                                                                                                    |                                                                                                                                                                                         |                                                                                                                                                                                            |                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>#27372D</div> <p><b>Deep Forest</b></p> <p>FOREST</p> <p>Primary. Grounds, the mark, headlines. ~30% of any surface.</p> <p>Body text on Bone 10.7:1</p> | <div>#F1ECE2</div> <p><b>Bone</b></p> <p>GROUND</p> <p>Primary ground for paper and screen. ~45%.</p> <p>Forest on Bone 10.7:1</p> | <div>#594132</div> <p><b>Umber</b></p> <p>EARTH</p> <p>Secondary text, rules on dark photography, section grounds. ~10%.</p> <p>On Bone 8.0:1</p>                                       | <div>#C46738</div> <p><b>Terracotta</b></p> <p>SIGNAL</p> <p>The one accent. Highlights one number per chart, one action per screen. ≤8%.</p> <p>On Bone 3.3:1: large text and UI only</p> | <div>#9E4D28</div> <p><b>Clay</b></p> <p>SIGNAL TEXT</p> <p>Terracotta darkened for text-size accents, risk labels, links.</p> <p>On Bone 5.0:1</p> |
| <div>#C9B69B</div> <p><b>Warm Sand</b></p> <p>NEUTRAL</p> <p>Fills, bars, map land. Never text on Bone.</p> <p>On Forest 6.4:1</p>                            | <div>#252522</div> <p><b>Graphite</b></p> <p>INK</p> <p>Long-form body text in documents.</p> <p>On Bone 13.1:1</p>                | <div>#A58A5F</div> <p><b>Mineral Gold</b></p> <p>MARK OF RECORD</p> <p>Embossing, foil, seal, a single hairline. Never text on light grounds.</p> <p>On Bone 2.8:1: decorative only</p> | <div>#655E52</div> <p><b>Stone</b></p> <p>QUIET TEXT</p> <p>Captions, labels, axis text.</p> <p>On Bone 5.4:1</p>                                                                          | <div>#E6DECF</div> <p><b>Linen</b></p> <p>RAISED GROUND</p> <p>Panels and table stripes on Bone.</p> <p>Forest on Linen 9.4:1</p>                   |

**Contrast measured to WCAG 2.1.** Terracotta on Bone is 3.3:1, so it is used for large type and UI only, and Clay carries text-size accents. Mineral Gold on Bone is 2.8:1, so it is kept for foil, embossing and hairlines.
