

PANGEA

V E N T U R E S I N T E R N A T I O N A L

Clarity across the real estate lifecycle.

Most real estate firms are paid to close a transaction. Pangea is accountable for what the asset does after it.

WHO IT SERVES

Private investors, family offices, landowners and operating partners who put capital into land, development and income property, and want one partner who understands every stage that follows.

WHAT IT REPLACES

A chain of specialists (broker, underwriter, builder, property manager) who each see one stage and hand the risk to the next.

THE ONE FEELING

“My capital is being handled carefully.”

IT MUST NEVER READ AS

Speculative. Sales-driven. Cold.

MISSION

To help clients make and manage real estate decisions with clear information, honest advice, and the operating knowledge to carry an asset through every stage of its life.

VISION

A real estate partner whose clients never have to ask where their capital stands.

Five stages, one accountable team.

From opportunity to operation.

01

Identify

Markets, opportunities, acquisitions

02

Evaluate

Underwriting, due diligence, risk, strategy

03

Create

Development, construction, execution

04

Operate

Hospitality, long- and short-term rentals, property management

05

Optimize

Asset management, performance, disposition, portfolio strategy

CORE VALUES

Transparency

Clients always know what is happening, why, what the risks are, and which assumptions sit behind the numbers.

Honesty

Truth before salesmanship, including when the answer is not the one the client wants.

Proactivity

Problems are found in diligence, not in construction. We plan for the next stage before it arrives.

Knowledge

Practical, operating knowledge across land, capital, development, construction, hospitality and management.

Alignment

We work with partners who value shared objectives, direct communication and clear expectations.

Inspired by the Burj Khalifa.

The tower stands because its wings brace a central core, and each part lets the others rise higher. Pangea works the same way: separate disciplines bracing one investment.

THE SPIRE

Capital and the investment decision, split down the middle because every decision has two sides: opportunity and risk.

THE WINGS

Land and development on one side, operations and management on the other.

THE OPEN ARCH

The shared center at the base. That space is the client, and everything in the mark is built around it.

Primary symbol, two-tone. Umber and Deep Forest.

Original concept. Drawn by the founders.

Final artwork. The same drawing, traced and refined as vector.

WHAT WAS REFINED

- **Both halves match**, mirrored to exact symmetry.
- **One clean tip.** The center split eases in just below it.
- **Even line weight.** Inner lines hold one width and taper to fine points.
- **Smooth edges.** Rough edges and stray marks near the wing tips removed.
- **Vector artwork** that stays sharp from favicon to building sign.

Horizontal, two-tone. Website, email, letterhead.

Vertical, two-tone. Covers, signage, card front.

Wordmark. When the symbol is already present.

Reversed. Sand and Bone on Deep Forest.

Single color. Deep Forest. Default for documents.

Black. Forms, fax, one-color engraving.

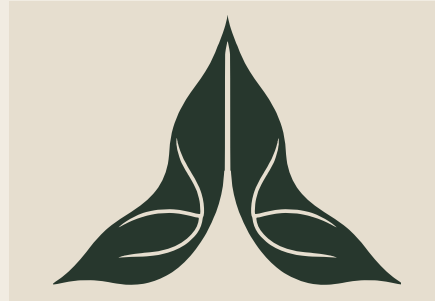

White. Over black or darkened photography.

Bone on Umber. Folders, textiles, packaging.

Two-tone. Primary.

Deep Forest. One color.

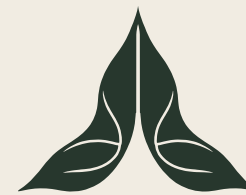

Reversed two-tone.

Avatar. LinkedIn, social, favicon.

Clear space = the cap height of PANGAEA on every side. Nothing enters the dashed line.

20 px

Minimum sizes. Symbol 40 px / 11 mm for full detail (the silhouette reads down to 20 px). Horizontal lockup 140 px / 35 mm. Vertical lockup 96 px / 25 mm.

Deep Forest on Bone does most of the work.

Terracotta is the one signal. It marks the single number, action or risk that matters on a page.

Surface share. Bone 45 · Forest 30 · Umber 10 · Terracotta 8 · Sand 5 · Gold 2

#27372D Deep Forest FOREST Primary. Grounds, the mark, headlines. ~30% of any surface. Body text on Bone 10.7:1	#F1ECE2 Bone GROUND Primary ground for paper and screen. ~45%. Forest on Bone 10.7:1	#594132 Umber EARTH Secondary text, rules on dark photography, section grounds. ~10%. On Bone 8.0:1	#C46738 Terracotta SIGNAL The one accent. Highlights one number per chart, one action per screen. ≤8%. On Bone 3.3:1: large text and UI only	#9E4D28 Clay SIGNAL TEXT Terracotta darkened for text-size accents, risk labels, links. On Bone 5.0:1
#C9B69B Warm Sand NEUTRAL Fills, bars, map land. Never text on Bone. On Forest 6.4:1	#252522 Graphite INK Long-form body text in documents. On Bone 13.1:1	#A58A5F Mineral Gold MARK OF RECORD Embossing, foil, seal, a single hairline. Never text on light grounds. On Bone 2.8:1: decorative only	#655E52 Stone QUIET TEXT Captions, labels, axis text. On Bone 5.4:1	#E6DECF Linen RAISED GROUND Panels and table stripes on Bone. Forest on Linen 9.4:1

Contrast measured to WCAG 2.1. Terracotta on Bone is 3.3:1, so it is used for large type and UI only, and Clay carries text-size accents. Mineral Gold on Bone is 2.8:1, so it is kept for foil, embossing and hairlines.

Do use the supplied artwork, in palette colors, with clear space.

Don't stretch or squash the logo.

Don't recolor it outside the palette.

Don't rotate or tilt it.

Don't add shadows, glows or effects.

Don't retype the wordmark or swap the A for a regular A.

Don't place it on busy images without a dark scrim.

Don't set the name in any other typeface next to the symbol.
